Care Connection *Success*

Thank You Care Connection & Easter Seals!

My Mom lived with us for several years and in 2017 my husband and I really wanted to take a vacation and visit our daughter. Care Connection working with Easter Seals provided us with 80 hours of respite care funding to help make this possible. Then last September my brother Joel suffered a stroke and other complications. At this point Joel needs complete care and his stepson Lucas has really stepped up to be there for him. Care Connection is again providing respite care so that Lucas can have a day off each week for 8 weeks while we look for longer term options. We are very grateful!
