WILLIAM HENDRICKS

asked for help and received more support than he could ask for thanks to Care Connection Aging and Disability Resource Center (ADRC). He was requesting transportation assistance, and help to complete another organization's online rental assistance application. Staff got him set up with the Rodie Transportation Program. However, due to a technicality was ineligible for the rental support. That's when ADRC staff jumped into action and successfully connected him to a program fitting Mr. Hendricks' needs. Not only is he relieved, but so thankful for the result!
